WILL THIS POLICY BUILD A NATION?

The Department of Customs sometimes is some very peculiar, and as construed by ome people, very inconsistent and well-night napplicable rulings. The majority of the decisions for which the Board of Customs is re-sponsible, are not without adequate foundation and if the general public, particularly those who complain, would carefully investigate the who complain, would carefully investigate the reasons why such rullings are handed down, they would escertain that they were issued primarily and for the explicit purpose for which the Department of Customs is existent,

But now an edict has gone forth that is quite clear to the majority of people. A a in Vancouver, B.C., wished to ship canmed salmon from British Columbia to ship can-med salmon from British Columbia to Halifax, via New York and Panama Canal, and upon enquiry of Hos. Jacques Bureau, Minister of Customs, were advised that under present con-ditions and regulations, the shipment, so rout-ed, would not be admitted to Halifax without

This recent ruling would seem to imply that business must be done in this country on a basis of rail freight or the business is lost.

One should not get deluded with the idea that Canadian railways are Benefitting because Canadians in Eastern and Western Canada are being prevented from doing business with each

other via the Panama Canal.

There is another instance reported recent-There is another instance reported recent-ly. At mine in-British, Columbia was, considering the jurchase from an Owen Sound firm of twenty tons of Grinding Balls, shipped via New York and Panama, these goods could com-pete with American products, but after asce-taining that there was no Canadian Customs of Ager in New York, the company teamed that they would have to ship all rail, or in the al-ternative, pay duty on Canadian goods. They accordingly found it cheaper to purchase American goods. And this right in the fact of the City Club propaganda, glad-hand cam-

paigns to buy made in-Canada goods.

The operation of our railways must indeed be carefully considered, but if, through the ex-

Exide Whenthetimecomes to buy a new battery

Look for this Side

Exide

A storage battery is one of those things that nobody ever wants to buy; you get a new one only because you have to. That is only so much the more reason for selecting one that will last for a long time.

When you install an Exide Battery in your car you are really taking out insurance against annoyance and repair bills and you are butting the day of renewal so far ahead that you are exercising common-

sence economy.

As for comfort, the willing power of an Exide, ready instantly to whirl your engine or brighten your road, is a satisfaction that you will appreciate as much as the thousands of other motorists who swear by, and not at, Exide Batteries.

and ar, axide Battery in your new car indicates that the manufacturer has taken every precaution to insure your comfort. And when your present battery wears out you can offset future battery troubles by re-placing it with an Exide. EXIDE BATTERIES OF CANADA, LIMITED

GOVERNMENT INSTITUTIONS

In the columns of this paper, there recently appeared a report covering the conditions pre-valent at Rockwood Hospital, Kingston, the methods existent in the operation of the institution and the tender care afforded the unfortunate inmates.

Emanating from such an authoritative source as Dr. C. K. Clarke of Toronto, who was previously in charge of the Hospital, this report will doubless prove a source of comfort to those in Belleville and Hastings. County, who

have loved ones living as patients at Rockwood. It is gratifying to them so be informed of the tender care to which the patients are subjected and of the deep individual interest manifested and of the deep individual interest maintees and by Dr. Edward Ryan, the resident superin-tendent, and his staff. The report sulegizes the system of general institutional welfare and refers particularly to the fact that those in charge are more combined. charge are most capable, courteous, Kindly and

Hardly Believable So Much Gold Exists In Any One Area

"Who are behind it?"
Isn't that one of the first questions you ask yourself before in-

vesting your money?

Do you realize what a big factor the board of directors play in any enterprize?

The reputation of a successful business man in any community, is too valuable to permit him to associate himself with any but reput-

is too valuable to permit than to associate numbers with any our repor-able companies.

No gold mining property has ever had on its board of directorate a stronger group than that associated with the Matachewan Canadian Gold Limited.

Gold Limited.

These men would never have allowed their names to appear as directors of the Company if they had not first convinced themselves that this Company had something more than a prospect:

How did they find this out?

By a comprehensive and intelligent program of development; comprising over 19,000 feet of surface trenching, shaftisinking, drift-

comprising over 19,000 feet of surface trenching, snattsinstang, dritt-ing and diamond drilling.

Sevently diamond drill holes were put down to an average depth of 250 feet. Every one of them showed the presence of gold, and payable values were maintained to a depth of 350 feet.

And the most striking result of this diamond drilling was the remarked behavior of the control of

In only one or two cases was ore encountered which was not of unercial value.

The ore bodies were unusual, measuring in most cases many feet,

in width.

No other known mine in Northern Ontario at the same stage of development has shown such a quantity of profitable ore.

If you live in or near Toronto, it will be worth your while to visit our offices and see the results of the diamond drilling and records

of other work.

It is hardly believable that so much gold exists all over any single area as has been encountered in the Matachewan Canadian Gold,

After you have examined the results of the diamond drilling, you will say, as so many others have, "This certainly looks like another "Hollinger."

The 1923 Chevrolet is Even Better Than Before

IN 1922 Chevrolet astonished the world by I producing a car of remarkable quality at an extremely low price. The 1923 Chevrolet is even a better car because 67 distinct improvements have been made in it.

The same sturdy construction that characterized the 1922 Chevrolet has been retained—the strong spiral gear rear axle, the sturdy chassis, the improved front axle assembly, the world's most economical motor, etc.

And to these have been added new features that make the 1923 Chevrolet a truly astonishing value. The prices of the New SUPERIOR Chevrolet are surprising —pleasantly—the motor-buying public of all classes.

There are five attractive models to choose from. One of them will suit you. They are: 2-passenger Road-ster; 5-passenger Touring; 2-passenger Utility Coupe; 5-passenger Touring Coupe; 5-passenger Sedan,

ELECTRICITY made possible a remarkable McClary's Oven. Now comes further improvement—removable elements! Open the door—the interior is sparkling enamel, without a corner or crevice. Draw out the heating elements and the oven is as clear and easy to clean as a large porcelain dish. It is an oven that it is a pleasure to see and to work with,

But—best of all—this oven pays for itself with the food it saves. McClary's oven has a door which closes tight, lessening shrinkage and loss of flavor in baking or roasting. See McClary's new Electric Range and demand a full explana-tion of its convenience and economy.

CLOSING ROADS IN SPRING

In the Province of Quebec, the Minister of Highways has decided to close a number of roads for sometime, to meter traffic, following the spring thaw. This would appear to be a good more, because anything approaching the property set when the property set will destroy meadam surfaces very rapidly, the Association of this city, are not offering and the fact that so many heavy trucks are early a reward like print dandelion. ness, has a rather bad effect upon road con-ditions generally, particularly when the high-ways are not in a completed state of construc-

If you knew positively that gold existed all over a wide area— that diamond drilling and other work proved the existence of this gold, what would you do?

Wouldn't you just put every possible cent you could get together to develop that gold?

Wouldn't you do as one Toronto doctor did who was convinced that Lake Shore would become a valuable mine? To secure all the stock he could lay his hands on, he borrowed

until he couldn't borrow another cent. He sold everything which wasn't required for his daily needs until he eventually had about \$25,000 invested in Lake Shore.

That was seven years ago—to-day his holdings, exclusive of dividends, are worth approximately \$350,000, and within the next three to five years should be worth a million.

Extend your vision a few years hence as the Toronto doctor did, and see the gold on the property referred to above being produced and returning you in dividends alone many times what the shares cost.

When some of the best known mines were first discovered no one had any idea, or any means of knowing, what they contained.

Conditions since then have changed. Owing to the knowledge gained through the development of other mines it is possible now by means of diamond drilling to know where gold exists on a property and to a certain extent approximately in what quantities.

Over \$500,000 has been spent in developing the property of the Matachewan Canadian Gold, Limited.

The work done on this property totalling 19,000 feet has disclosed the existence of gold in quantities which justifies the opinion the Matachewan Canadian will develop into one of the great mines of the conlinent.

Can we verify this statement by actual evidence?

Yes, to your entire satisfaction.

We don't care how skeptical you may be, we can show you the proof, and convince you that the gold is there. In addition to a great amount of other work seventy diamond drill holes have been put down on this property—no! in one particular section, mind you, but all along the mineral zone for more than a quarter of a mile.

In only one or two cases has commercial gold not been encoun-

The "logs" of some drillings show commercial ore bodies 25 to 30 feet in width, and anyone is privileged to examine these "logs" in our office.

From what evidence we have we are firmly convinced that the Matachewan Canadian Mines, Limited, should develop into the class of such mines as Hollinger, Dome and McIntyre.

The Matachewan Gold Area was discovered in 1916 by the late Sam Otisse, one of the best known prospectors in Canada.

It is situated in the Temiskaming District, and is reached by the Temiskaming and Ontario Railway.

As you will see by referring to the prospectus, the Company has one of the strongest boards of directors ever associated with any min-

The purpose of the present offering of 600,000 shares of stock at \$1.00 is to further develop and mine the ore that is known to exist and to build a 300 ton mill as is proposed by the managing director.

You should write for prospectus and other information regarding

For Baby's Bottle

THE qualities which doctor, nurse, and mother seek in milk for babies are found in Carnation Milk. For it is simply pure, whole cowar milk with about 60% of the water removed by evaporation, sealed in air-tight containers and sterlized. It is always uniform. And you at once, even in summer. Your doctor will gladly recommend Carnation for your baby. Order several tall (16-oz.) cans or a case of 48 cans from your grocer.

Try this recipe and write for free Carnation Recipe Book, including the formulae for infant feeding.

CARNATION AS A DRINK

For drinking purposes, use one part Carnation Milk mixed with an equal portion of cold water, or two parts Carnation to three parts of water—according to how rich you care to serve. Ice and stir well. A booklet containing recipes for twenty-five drinks will be sent free.

All This Week-Reduced Prices on Gold-Seal Congoleum

Gold-Seal Congoleum at Special Bargain Prices!

OLD-SEAL Congoleum Weck is in Ifull swing. Saturday and again yesterday hundreds of eager housewives took advantage of the great money-saving opportunity offered by this special sale of Canada's most popular floor-covering.

But the assortments of designs and rug sizes are still complete -you can still obtain the rug sizes and patterns you want.

A Timely Buying Opportunity

If you have recently moved into a new home and have additional floors to coverif you have some worn woven rugs or carpets which you would like to replaceif you need floor-covering for your summer home-this Congoleum Sale is a moneysaving opportunity you can't afford to naiss.

For Every Room in the House

Gold-Seal Congoleum Art-Rugs come in a variety of beautiful patterns. So you will have no difficulty in finding suitable patterns, colorings, and sizes for kitchen, bathroom, bedroom, dining-room, livingroom and outdoor sleeping porch.

Or if you prefer an all-over floor-covering, you will find many attractive patterns in Gold-Seal Congolcum By-the-Yard.

Canada's Most Popular Floor-Covering

You need only to read this partial list of Congoleum's advantages to understand why this modern, sanitary floor-covering is preferred to woven rugs and carpets ir many thousands of Canadian homes.

Designs: No other low-priced floor-covering offers such beauty of design and coloring.

Easy to Clean: Just a light mopping leaves the smooth, sanitary surface spotte tiresome beating and sweeping to do.

No Tacks to Drive: Congoleum Rugs come all in one piece and lie perfectly flat on the floor with-out fastening of any kind. They never curl or "kick up" at the edges or corners.

Satisfaction Guaranteed

All the Gold-Seal Congoleum included in this sale is fresh new stock; and carries the Gold Seal pledge: "Satisfaction Guaranteed or Your Money Back." This Gold Seal appears on the face of all genuine Congoleum. It protects you absolutely.

Only a Few More Days

Remember. Gold-Seal Congoleum Week ends on Saturday night! Don't allow this great money-saving opportunity to slip by without taking full advantage of it.

> Saturday is the Last Day of the Big Sale!

PASSING COMMENT

Ramsay MacDonald says that there are worse things than dining with Royalty. We agree. Try boarding for a while.

After June 10, foreign shops must com "dry" into United States ports; but the trouble over the edict-has started already, and prom-ises a most interesting impasse.

The next social function for British Labor members is to dine with Lady Astor and meet the Prince of Wales. They should beware of succumbing to his sunny smile.

How an Investment of \$5,000 Made \$21,000 Within a Year

"Did you notice that chap who just went out?" I turned in the direction of the only other occupant of the smok-ing compartment of the car and found him addressing me.

"Not especially," I replied. "Why?"

"Whenever I meet him I always think of automobiles." "About ten years ago," he continued, "an aunt died and left him \$5 non 5

"It had always been his ambition to own an automobile, which he bought for \$3,500.

"I had just returned from the gold mining camps of Northern Ontario, and met him one evening in the King Edward Hotel.

"We were having dinner together, and knowing that I had made money in mining, he finally asked me what I thought about the possibilities of gold."

"I was so enthusiastic over what I had seen up North that my friend became equally enthused."

"I advised him to sell his car and put his \$5,000 in Hollinger." "I assured him in a year's time he would get his money back

and have enough left to buy a car. "As the car was brand new, he sold it and put his \$5,000 in Hol-

"Within a year he sold his Hollinger for \$21,000, bought a \$5,000 car, purchased a home and besides had his \$5,000 to the good—in other words, his \$5,000 made \$21,000.

"Before you came into the smoker he told me he had bought a block of shares of Matchewan Canadian Gold Limited and intended leaving his money in this mine until he had made a fortune."

"And I certainly think he will, because he is one of the luckiest

There is not the slightest doubt the Matachewan Canadian Gold Limited offers greater opportunities at the present price of the stock than any other property in Northern Ontario. About the only speculation connected with this stock is how big the mine will develop and how high the stock will go. The gold is known to exist for at least 1,600 feet in length, and over wide widths on the property, diamond drilling and-other work done has proven its existence in large ore bodies of commercial value.

The proof is right here in our office, accessible to you for confirmation at any time.

The diamond drillings were made by an experienced mining en-gineer, and are scientifically accurate in their showings.

No argument in the world can get over actual facts, and they are

Summing up, the property of the Matachewan Canadian Gold Limited covers an area of 840 acres in one complete block.

As you will see by the prospectus, the board of directors is an

The present offering of 600,000 shares of the Matchewan Can-adian Gold Limited at \$1.00 a share is to build a mill and mine the ore which the development and drilling has disclosed.

OUR MOTTO-Cleanliness, Corteous Treatm

An Investment With Tremendous Possibilities.

"If there is one thing in this world I need more than anything else

Isn't that the cry of the great majority of mankind?

The possession of money does bestow such a comfortable and independent feeling.

It relieves you of worry, it gives you greater comforts, it enables you to travel, to see the world, it removes you from daily drudgery, it canble you to travel, to see the world, it removes you from daily drudgery, it canble you give your children the best possible education, to clothe them properly, to give them good wholesome food, to have, the best medical attention both for yourself and family when ill, etc.

Does your present position in life hold out any prospect of your hing this state and becoming independent?

Yet if you have some money saved and will exercise a little pa-ence, here is your opportunity—an investment in the stock of the latachewan Canadian Gold Limited.

And we base our belief on these facts:

Diamond drillings and other work disclosed the existence of very large ore bodies of gold ore in this mine. No wonder the owners of this mine are enthusiastic-

No wonder they believe they have one of the richest mines in Northern Ontario.

Wouldn't you feel just as enthusiastic if you knew positively that only a matter of the work of taking it out and milling separated you from quantities of gold?

If you could see, as the writer has seen, the results of the diamond drillings and development work-

If you would come in and examine the "logs" of these diamond drillings showing bodies of commercial ore in some cases over twenty feet in width—

dfilings souring occurs of the state of the

And remember that this ore is not confined to one particular section, but is apparently distributed over a wide area.

The diamond drillings show one of the richest, most continuous and most easily mined ore bodies in Northern Ontario.

Although the drillings have only been made to an average depth of 250 feet, everything points to the ore bodies extending to great

Therefore the possibilities for wealth from this mine are almost beyond realization.

Already there has been spent over half a million dollars in acquir-ing the propery and for development work and diamond drilling to prove up the existence and extent of the ore bodies.

And now that the gold is discovered, money is needed to get it

So we're offering 600,000 shares of the Matachewan Canadian Gold Limited at \$1.00 (par value) a share.

Our confidence in this mine is so great that, if, within thirty days after you buy the stock—If bought-direct through our office—and after you buy the stock—If bought direct through our office—and after a personal examination of the records and data on file in our office, you are not perfectly satisfied with your investment we will refund your money—could artithing be fairer than this?

Write for prospectus and other particulars.

Leonard has almost a million dol-lars right within his grasp. The lightweight champion has in pros-pect contests' with Walker, Lew Tendler, Salior Priedman, Charley White and Rocksy Kansa and they would all be good drawing cards,

Johnny ilhane, the venerable fea-therweight champion, has already-signed to meet Eugene Criqui, the Buropean featherweight champion and it he gets over the Frenchman he can, it he wants to, fight Johnny Dundee and Joe Lynch.

Jimmy Wilde the world's fly-weight champion, is coming over to fight Pancho Villa, the former Amer-ican champion, and the winner per haps will be matched with Frankie Genaro the present champion.

Villa and Genaro both say they would like to meet Joe Lynch and if the bantam champion can avoid his own challengers, he no doubt would accept an offer—if large enough.

Congoleum Week Ends Tomorrow

WHEN the stores close on Saturday night, end. The special bargain prices that have prevailed all this week will be withdrawn. Your opportunity to buy Canada's most popular floor-covering at these reduced prices will be gone.

If you already have used Gold-Seal Congoleum Rugs in your home you know their beauty - their remarkable money-saving and labor-saving features. If you have not yet put Congoleum Rugs in your home, you owe it to yourself to at least see what beautiful, sanitary, and practical floor-covering you can buy for amazingly little money.

Don't delay! Go to any of the stores below and select your Gold-Seal Congoleum Art-Rugs today.

Beautiful Patterns for Every Room

Gold-Seal Congoleum Art-Rugs are famous for their beautiful patterns. You will find Oriental and Chinese designs in warm, rich tones for living room and dining room-dainty flowered patterns that bring a fresh, bright look to bedrooms-and a fine range of conventional patterns for kitchen, bathroom and pantry. Or, if you prefer to cover the entire floor, you will find many attractive styles in Gold-Seal

Gold-Seal Congoleum By-the-Yard as durable, fist-fring material is rell form for use over a floor. Waterpreat anxisty, meets no featuning. Satis-naranteed by the Gold Seal.

Two Yards Wide 75c per sq. yd.

Waterproof and Easy to Clean

Gold-Seal Congoleum Rugs are made all in one piece on a durable fabric-felt base. They are waterproof, germproof and accident-proof. Neither dust, enamelled surface. Unlike woven rugs, they requir no tiresome sweeping or beating. A quick going-over with a damp mop makes Congoleum as clean and spotless as when new-its color fresh and sparkling.

Lies Flat Without Fastening

This is another important feature of Gold-Seal Congoleum. No tacks nails, or cement are ever required to hold it in place. It literally "hugs" the floor and never "kicks up" or curls at the edges or corners.

Genuine, Guaranteed Goods

All the Gold-Seal Congoleum offered in this sale is fresh new goods, just received from the factory. All of it carries the famous Gold Seal pledge of "Satisfaction Guaranteed or Your Money Back." Look for the Gold Seal on the face of the goods. It protects you against inferior imitations of Gold-Seal Congoleum,

This is Your Last Chancel

If you wait until tomorrow something may prevent your going. And then you will have to pay much more for your Congoleum. After tomorrow prices will positively go up to their former level.

These progancial return to the publishers. These prog-mostications are of course accepted from a pub-lisher, who is making an excursion into the reekly field, in a territory which he believes weekly field, in a territory which he believes commercially fertile, and which he desires to control, but is reasoning and vindicating his course under the camouflaged head of better service to the public which policy must of be absolutely independent on political ns and public affairs; and which docquestions and public affairs; and which doc-tring, is being preached and propagandized broadcast to readers. Time will tell the tale of this system of chain papers. Prophesies have been made that the linking-up plan under cen-trailised control will provide better facilities to the public. "Well I guess I will go to the country," said Ernie Drury, as he banged his hob-nailed boot against the wood box.

Let us hope that the come back qualities of Jess Willard will not be demonstrated by "Brick Top" Drury, when he squares off in the political arena.

Despite the fact that one of the planks in the U.F.O. platform is against the conferring of titles the party has selected in South Essex, a Duke.

NATURE'S ADVICE

(Nan Terril Red in New York Times,
"Nature, how shall I say," said Spring,
"That hope is here when the robins sing!"
How shall I call to the World, "Take heart!
Shall I pat a Wind in the willow trees,
To sing a song on a silken bever?
Shall I pour the drops of a gentle Bain
To southe the hearts that are still in pain!

Shall I send the slanting rays of the Sur "Shall I send the stanting rays of the Sun' To gild the things that are dead and done? How shall I show to Love the truth That mine are the happlest dreams of Youth' How may I comfort the tired and old For the dreary days that are bleak and cold Will Youth but doubt if the dream shall last! Will age but long for a dream that's passed?"

Nature is old, as the Spring is young, And many a song of her own has sung, So she gazed at Spring for a little while And answered her with a knowing smile—"Coaxt the Sun and the Wind and Rain To help you prove to the World again. That yours are the brighest, gladdest he Tell it, sing it, 'say it with flowers."

PRESS OPLNIONS

The attitude of the present administration in the United States, of course, blocks the way for the present but sooner or later Canada will have to deal with the matter of wide trade relations with the republic.

HERE AND THERE THE HISTORY OF A FAMOUS SONG

Hawick Express, Scotland.

—G. A. Dougias, Bernaide, writing in the Gias-gow Herald, says: I reed your excellent article upon "Lady Scoti" with considerable amount of interest. In regard to the great song "Annie Laurie," there is a con-siderable amount of difference as to the wording of the two verses written by William Douglas, of England. I think, however, that the following is correct:

"Maxwelton brace are bonnie,
Where early fa's the dev,
More early fa's the dev,
Gard one ber promise true!
Gard one ber promise true!
That ne'er forget shall be,
I would lay me doon and dee.
Her locks are the the summer,
sha's breisted like a resu.
And mine her waist micht span
Bat, oh- that promise true!
Will ne're be forget, by me,
Will ne're be forget, by me,
I would lay me doon and dee."

orth is recorded in the following quasist words, in 8 Robert's own handwriting:
"At the pleasure of Almighty God, my daughter, Annie Laurie, was born on the sixteeath day of December, 1882, about six o'clock o' the morning, and was baptized by Mr. George Hunter, of Glercarine."

I Gives You More Miles of Performance, Rubber is the best insulating material that can be used in a battery. But it never could be used successfully until Willard found away to make it prorous without affecting its insulating properties. Threaded Rubber withstands the action of the seid-solution, the heart nection of the seid-solution, the heart pinching of the plates as no wood insulation can.

2 Does Away with a Big Repair Bill. Wood insulation canot stand the destructive influences inside of a battery for as long as good plates will last. Thus there comes a time in the life of most wood-insulated batteries when they need reinsulating. This costs from \$10 to \$15. Threaded Rubber Insulation, unless abused, does not need to be replace

UNITED EFFORT REQUIRED

The meeting scheduled for bnight in the Interests of the organisation of a committee to supervise the staging of the United Empire Leyslist celebration in this city next June should, be attended by every individual who believes in civic welfare and the perpetuation of the interney, of those who have gone before, but, who, previous to their passings, laid the foundations of a noble herizage which we now

foundations of a noble heritage which we now enjoy.

Leaders are only ordinary persons with extraordinary determination, and the object of the meeting is to consolidate and co-ordinate the work which is to be done in connection with the celebration, so that the whole onus responsibility and expense will not be borne by a few workers. Everyone should realize that, a few workers. Everyone should realize that, if the event is to be the success which it so richly deserves from every standpoint, a spirit of co-operation and determined united effort must be exemplified and for that reason it has been thought advisable to organize a strong committee to place in charge of the afhas been thought advisable

fair. Taking things as they come does not wear one oft so fast as dodging them, and those who are, content he remain in the valley will get no news from the mountains, so it behooves avery citizen to be prepared and anxious and willing to accept his full share of the respon-

willing to decept to the event. In state of the self-shilly relative to the event. Farties who are resident in other sections are to be in attendance to-night and surely every citizen of Belleville who is not required to sure inconvenience by travelling to the forum, will make a determined effort to be presented.

It will be ample proof that those who do attend will demonstrate the fact that they are interested in the welfare of Belleville and in those hardy fettlers of the earlier days who braved the perils of land and sea to carre out homes for themselves upon a virgin soil. They left us a splendld heritage and rock upon which to build. We should do our utmost to show our appreciation by commemorating their foresight and the hardship which they endured for their posterity. Let us attend and promote the scheme with all our might and main.

OBSEQUIES

Convenient, Economical and Pure

IF you have never known the convenience of milk that is always at hand and ready to use, that takes upsolittle room and keeps sweet so long, you will be delighted with Carnation dilk. Creamy and rich, Tadods a new flavor and richness at less cost than cream. Economical for ordinary milk uses because you add a little more than an equal part of water to replace that which we have removed, and because it is never wasted, as it keeps for several days after the can is opened, when kept cool.

Carnation Milk is pure—because it is simply fresh, whole milk with about 60% of the water removed, scaled in air-tight tins and sterlized. Your grocer has this finer milk—order several tall cans or a case of 48 cans.

Try this recipe and write for the free Carnation Cook Book.

RICE PUDDING

2½ cups water, 1½ cups Carnation Milk, 1/3 cup rice, ½ teaspoonful salt, 2 table-apoonfuls sugar. Wash rice, mix ingredients, and pour into buttered baking dish. Bake two and a half hours in a very slow oven, attirring every twenty minutes the first hour of behing to prevent rice from settling.

BIRDS COMBINATION WALL BOARD

Make a Room Like This Yourself

IF you have a room that needs decorating, a ceiling to be repaired, or a new room to be made out of unused combination Wall Board, the only board of its kind. It is oak grained on one side, cream white on the reverse side.

Takes paint wonderfully well in case you wish to paint it; but it needs no painting or other decoration because of its beautiful finish.

Think how many places there are in your home where Bird's Wall Board can be used to advantage. Then come in and let us tell you how little it coefs.

The cost of food folly

The cost of your food mistakes is not in dollars and cents alone, but in years of suffering from indigestion—and that means low vitality with little strength to resist disease. Cut down the httle strength to resist disease. Cut down the, high protein foods, avoid potatoes and sweets for awhile, and get down to a simple diet of Shredded Wheat Biseuit with green vegetables and fruits, and see how much better you feel. Shredded Wheat is all viscod. It is the whole wheat in a digestible form. Two Biscuits with milk or cream make a complete, nourishing meal, that costs but a few cents.

TRISCUIT is the Shredded Wheat cracker—a real whole wheat toust—caten with butter, soft cheese or marmalades.

seats and backs.

The simple Chevrolet dual control, neatly arranged instrument panel and elever seating plan provide comfort and roominess for four adults, with plenty of arm-and-leg freedom for the driv-

er. Beauty of appearance abounds in full measure, BUT—

Permanence and performance mean more.
That's why the coupe body is steel paneled over a rugged hardwood frame-work, braced with drop forgings.

THIS STORE SELLS PROTECTION

So says this sign in the window of the dealer whose name appears below. And it speaks truth-if this argument is sound

Because it takes at least as long to spread poor paint as good

Because—the cost of paint or varnish is trifling in comparison to the cost of spreading it and the value of the property it protects;

Because—good paint and varnish go on protecting property long after poor products have flaked and crumbled away; and

Because this store after investigation has chosen to sell

Therefore—this store sells the highest grade of protection for your money, your property and your time.

FOX CHOKERS FOR THE HOLIDAY

When Nature equires assistance, she will not be slow in conveying to you an intimation of the fact. Decline of energy, inability to sleep well, head-neb, billousness, constipation, a general sluggishness of mind and body and any sign of digiestive "unrest" should impel you to seek the aid of a reliable medicane without delay. There is no better—go surer—no sater—than this proven reinhely.

When Winter Comes Be Prepared for Solid Comfort

To provide anything less than solid comfort for your home is wasteful extravagance—eveh if a few dollars are saved on the original outlay. ful extravagance—even if a few dollars are saved on the original outlay.
When you consider that the best heating system uses no more coal than
the poorest—and then consider what, a difference it makes to have a really
comfortable home—you will surely see the wisdom of consulting a expressignative of McClary's before going ahead with heating plans for your own home.
Our reputation, after 75 years of dealing, with the public, and our will
ing guarantee of satisfaction, are your assurance that a furnace made by
McClary's will give you Solid comfort the wither through.

Save Time, Labor and Nails

Bird's Neponset Twin Shingles and Bird's Cana-dian Twin Shingles are really two shingles in one. They are self-spacing. They are easily picked up and laid with one hand. TWO shingles are laid at one operation. One-third less nails.

Bird's Neponset Twin Shingles, 20 in. x 1244 in., and Bird's Canadian Twin Shingles, 20 in. x 12 in., are impregnated with asphalt and surfaced with alshe. Colors—natural slate-red and alate-

Bird's Neponset Twin Shingles combine every thing you want and need in a shingle—handsom appearance, lasting wear, fire-affety and economy Come in and let us estimate the cost of re-roofing your home with these artistic shingles.

Why Flakes instead of Powder?

Because, during the many years that Gillett's Lye has been helping Canadian housewives to keep everything clean and sanitary, it has been our constant endeavor to improve it for general use.

Many people found that the dust from powdered lye was objection-

HOLMES & EDWARD SILVERPLATE The Bridal Gift of Quality

THE very reasons which make silverplate the the most desirable of all gifts to the bride-beauty coupled with utility—are the very reasons why you should make it a point to secure "Holmes & Edwards".

It costs more—true, but such a trifle that the extra quality will well repay the possessor in a lifetime of service.

The fascinating lustre of "Holmes & Edwards" Silverplate is attained by hand burnishing. Added attraction is superbly evident in the charming, patterns. But the generous use of silver gives "Holmes & Edwards" tenacious wearing qualities that crown all other meriss.

Let your jeweler explain the two processess, "SILVER INLAID" and "SUPER PLATE" by which protection is given "Holmes & Edwards" at the wear points. Ask for "Holmes & Edwards" Silverplate if you are looking for the best.

Manufactured Exclusively in Canada by

THE STANDARD SILVER CO. of TORONTO

You can get Holmes & Edwards table appointments such as Tea Services, Casseroles, Bread Troys in the same high quality. If your jeweler is temporarily out of stock he can get any piece for you on short notice. See his catalogue for further suggestions.

LDSMOB

The Four-Cylinder Touring \$1375

THE Oldsmobile Four-Cylinder Touring provides an almost un-paralleled opportunity for shrewd car buying. Never before has such high quality been offered at so low a price. You must see and drive the Oldsmobile Four to gauge the extent of the value offered. Yet some appreciation of its unusual worth may be gained from a study of the following equipment:-Finest quality upholstery, walnut steer-ing wheel and walnut finish instrument board, windshield wiper, etc.

The remarkable price-quality combin-

ation offered in the Oldsmobile Four is ation offered in the Oldsmobile Four is possible because of Oldsmobile's affili-ation with General Motors of Canada, Limited, with the tremendous engineer-ing, manufacturing and purchasing facilities this affiliation affords.

We could write pages on the car's per-formance records, on the superiority of its forty-horse-power, four-cylinder engine, on the deep, seven-inch frame, on the standard all-metal, evered body —but you must see and test this car yourself to realize fully that it is one of the best price-value opportunities on the market today.

A Business Policy for a Business Man!

THE London Life Insurance Company senses a growing demand for a class of insurance that will meet the needs of busi-ness and professional men who MUST carry sufficient insurance, but yet are compelled to use every possible dollar in the con-duct of their business or the pursuit of their calling.

"Low premiums" is the answer.

in the past "low premiums" have meant policies which did not share in profits; in other words, straight guaranteed contracts with no opportunity to participate in the improvement participate in the improvement of the business or the prosperity of the Company.

The new Superselect policies of the London Life grant these low premiums without the sacrifice of the other very decided advantages
